Clery Meeting
Wednesday, May 21, 2014 - PCR

I want to thank everyone again for all your support. Mary Chatigny has volunteered to help with the Campus Safety Training. This is such a big undertaking, specifically identifying who the CSA's.

Nita: it would be helpful if you could send a list of who you think need to be trained in your area. When we recently spoke you listed: Dina Brown, Rob Parker, Sue McAvoy and possibly Marcia Winters. At our meeting today we discussed that other colleges have 100 CSA's. We may need to communicate with Bill Heineman's area to see who he recommends.

Katie and Andrea are doing a great job updating the Public Safety website and working on the Anonymous Reporting form.

I did look into North Shore Community College's Online Training and it is a Stafford link.

I will send a request to Institutional Research/Tom Fallon to inform him that a Climate Survey is "urged" since it takes a long time to develop.

Once I finish my research on the other community colleges I will let you know what I find.

We discussed adding to the web site anonymous tip phone numbers to the Haverhill, Lawrence and State Police. I will research those numbers and get them to Andrea.

Annual Security Report: Due to the amount of work we currently have for Clery, I am starting the report sooner than later. We have a lot to add this year. Once I have a draft we can invite Frank O'Brien to a meeting.

After discussion of how the Lawrence campus has changed in size, we may want to add a paragraph in the Annual Report. Gene Hatem mentioned that our statistics could change this year due to a larger campus.

Please see below the info that Wendy Shaffer shared with me. Mary, there is also some Title IX info you might want to read. See you in June.

WORKPLACE ANSWERS

<u>Campuses Under Fire From Task Force</u>

Responding to **startling statistics** and renewed student activism, the *White House Task Force to Protect Students from Assault* published its first report detailing how government agencies and universities will address violence on college campuses. The full summary, with Resources to implement these ideas, is **available here.**

The Report outlines 4 objectives:

1. **Identify the Problem** – Campuses are "urged" to conduct a Campus Climate Survey during the winter or spring semester of 2015. The survey will most likely be mandatory by 2016.
2. **Prevent Assault** – **Prevention training programs** must be in place, with a focus on Bystander Intervention and "Men as Allies."
3. **Respond Effectively** – Campus policies and the definition of "consent" should be re-evaluated and include Student involvement. It is recommended that campuses partner with community organizations.
4. **Improve Enforcement and Transparency** – The Dept. of Education's Office of Civil Rights will be more visible on campus, data will be released and **www.NotAlone.gov** updated.

Your Action Items

- Conduct a Survey
- <u>Provide Training</u>
- Re-evaluate Your Misconduct Policy
- Partner with Community Organizations

Ongoing Awareness Campaigns, Not Just One-Time Training

Our Complete Solutions Include:

[Title IX and Violence Prevention](#)

[Campus SaVE Act & VAWA](#)

[Bullying Prevention](#)

[Campus Harassment & Discrimination Solutions](#)

[Conducting Campus Surveys](#)

Our approach focuses not only on helping you with your initial training, but with providing ongoing training as an effective awareness campaign that hammers home the fact that your campus does not tolerate violence against anyone of any gender. All our courses are highly customizable and are tailored to different audiences (ex. Faculty, Staff, Investigators, Students).
