

## PROGRAM REVIEW STATUS REPORT

**PROGRAM:** Respiratory Care

Date last updated: Spring 2014

Update provided by: Jennifer Jackson-Stevens

IMPROVEMENT ACTIVITIES AND RESOURCE REQUESTS		STATUS OF ACTIVITIES AND REQUESTS	
DATE RECORDED	ACTIVITY OR RESOURCE REQUEST	DATE OF STATUS REPORT	STATUS
6 -12	Financial compensation and opportunities for personal and professional growth	FY14 done. Requested for FY15	Approval in the FY14 budget for National Respiratory Teaching Conference (AARC Summer Forum).
6 -12	Institutional Strategic Plan: embracing diversity	FY14 done.	Global Awareness simulator scenarios added and implemented into the curriculum.
6 -12	Modification of this program and its impact on other programs at NECC (increasing enrollment rates)	unsure	Enrollment rates have been increased and resources have been adequate up to this point, however, NECC wants to increase more, and FY15 budget has been cut.
6 -12	Commitment to NECC's Achieving the Dream Initiative (increasing enrollment rates)	Fall 2014 more clinical affiliates added	Would need 3 <sup>rd</sup> full time faculty member if enrollment rates continue to increase, since a 2 <sup>rd</sup> lab section would
6 -12	Instructional Technology: "computers on wheels" with practice RRT clinical simulations	Not done	Have not been added.
6 - 12	Library and related learning resources	Not done	This was thought to be cost-prohibitive per librarian.
6 - 12	High-fidelity simulator mannequin pre-written scenarios	FY14	Done
6 - 12	Full-time Respiratory Therapy faculty member	Not done	Would be highly advisable if enrollment numbers were increased to greater than 20 students. Please see
