3 – 4: **GENERAL DISCUSSION**

1. Brief review of responses to last year's action plans.
2. What themes do this year's program reviews have in common? What are parts of action plans that could be implemented quickly with few extra resources?
3. Concerning parts of the action plans that appear to require significant resources, given that the recommendations are supported, where might those resources come from?
4. What would be your recommendations for the future for program review work? What could the college do to facilitate faculty's work in this area?
