

**OPERATIONS TEAM Minutes
TUESDAY, May 13, 2014**

- ❖ **Impact Committee/All College Assembly** Terry Cargan, chair of the All College Assembly Executive Committee spoke to the committee about the concerns that the All College Assembly had in regards to our committee and its effect on decisions that are made on campus. The Executive Committee did not know that the Impact/Space Committee existed. They feel that many of the issues brought to the Impact Committee should have been brought to the ACA instead, such as the Parking Policy. It was decided that the Impact Committee will change the committee name and all minutes from every meeting will be sent to Terry.
- ❖ **Opportunity Works Intern Program** David Gingerella announced that Opportunity Works is partnering with the College to start up an internship program for some of individuals that they serve through their program. 8 highly functioning adults with disabilities will come and intern in different areas of the college. Maggie Lucey and Martha Leavitt will be heading up this program. We will hear more about it as things progress.
