

**Integrated Student Experience (ISE) Implementation Alliance
June 21, 2018 Meeting
9:30-10:30 AM C204 Center for Professional Development**

Minutes

Attendees: Hearn, Farrell, Giampa, Ciampi, Portanova, Knoepfler, Holden-Gouveia, Moore (guest), Wheaton, Rogers, Zubrow, Favara, Heineman, J. Sullivan, K. Sullivan

1. More on Student Success Hub/Meta Major Centers Collaboration

Career services and the MMCs (guest: Ashley Moore)

student career opportunities is a distinct goal in NECC 2020; also connected to ISE goal
has its own large goal team with specific objectives as part of NECC Strat Plan
also has crucial role to play in ISE: career exploration and preparation
collaboration with Business and Accounting Center was a highlight last year
how best to encourage collaboration with all centers in coming year?

last year industry specific events in Business MMC: prescheduled during class time

JC: really positive, students gained a lot, Ashley/staff were good partners

Psych panel with Hilmar and Isabelle

looking to do more in coming year: Ashley has funds for faculty liaison work in each MMC
driven by MMC's specific needs and desires

STEM needs separate CIS/ENG vs Science: 2 liaisons? Host NE STEM events too?

Liberal Arts liaison might occur through chairs/coordinators; Prof Studies too?

Please connect with Ashley to plan both fall and next spring events; Business done already

JS: Hub needs career connections too; invite Hub personnel to the MMC events

Workshop team working to coordinate student events in the Hub

Post-mortem on course registration in the Center for Business and Accounting this spring

Faculty training to register students in Banner?

course registration in Business MMC was also a highlight last year: did a pilot

JC: Rosalie was key for inputting registrations; need 2 printers; TF: move extra printers
from Hub?

cross functional relationship building was good with enrollment services

faculty need to herd students in; more intrusive advising is planned

we want to do MORE of this registration in the Centers but the WAY we did the pilot may
not be sustainable

at least as far as Tina's staff's participation is concerned: CPAC slows to a crawl
at Business MMC post-mortem Kristen expressed interest in learning how to input registrat.

Grace training Pam D this summer; are others interested? Please tell Grace

it opens up all kinds of possibilities for course registration in the short term

IR may be able to help us come up with an easy way to track student registration obstacles

We need to share the list of potential Holds with each center

2. Updates from the Teams

Curriculum Pathways

successful feedback session on pathways last week

will provide instructions and template shortly; Grace will edit for consistency, student ear
positive feedback on the template itself

JZ asked that we nudge coordinators/chairs on their curriculum maps

Meta Major Centers

budgets released last week; need to decide about DCE pay rate

leaders met last week; a lot of idea sharing; list of September activities due in July

Student Success Hubs

successful retreat for Hub was held yesterday

Advising Reform

professional advisor liaison list is out but may need a few phone number changes

need to plan transfer events in the MMCs with a long lead time

Stephanie Wares becomes professional advisor supervisor on July 1st

3. Other Issues

Next meeting Thursday July 12, 9:30-10:30, C2014

Communications plan around MMCs, SSH, moves, etc. needed

we need to share events calendars and consolidate them

Get help from Art and Web classes doing the MCC website construction? (Bill will talk to Ron at Dashboard meeting)
